

# LAUNCH CRAFT AT ESSEX TODAY

**Handsome Sch. Edith L. Boudreau Dipped Waters at Essex This Morning in Presence of Large Throng**

The latest addition to Gloucester's dragging fleet, the Edith L. Boudreau, made her initial bow at 11 o'clock this morning when she gracefully slid off of the shipyard of James & Son, at Essex.

It was a perfect launching and as the last wedge was driven from the bow, Mrs. Edith L. Boudreau, the wife of Capt. Alphonse Boudreau, for whom the boat is named, christened the craft by smacking a bottle of the days of long ago against her side.

The tug boat Eveleth was in the waiting and saluted the craft in steamboat fashion, while the automobile horns tooted their approval. The schooner will be towed here where her spars, rigging and engine will be installed. The latest type

Standard Diesel engine of 220 horsepower will propel this new craft.

## Second of Fleet.

The Edith L. Boudreau is the second of the R. MacDonald & Son fleet, being built for R. MacDonald & Son, Capt. Alphonse Boudreau and other interested parties. She is 95 feet long and a very staunch appearing craft.

Capt. Alexander MacDonald under whose personal supervision the craft was constructed, was presented with a beautiful American flag for the new boat by a group of his friends on Saturday night.

At present Capt. Boudreau is in command of the Marie and Winifred and will continue in this craft until the new schooner is ready for sea which should be in a month's time.

# FIFTY VESSELS AT HUB TODAY

**TWENTY-ONE SEINERS HAVE 707,000 POUNDS—GROUND FISH RECEIPTS HEAVY.**

Today was one of the biggest days the Boston fish pier has seen this summer. A fleet of 50 jammed about every inch of available docking space when the bell rang for the Monday trading. Receipts of groundfish and mackerel were particularly heavy. In fact, it was the largest single day for mackerel this season.

Fares totalled 1,515,000 pounds of groundfish, 707,000 pounds of fresh mackerel, 18,000 pounds of halibut, and 186,000 pounds of mixed fish. Mackerel were landed by 21 seiners. The market opened fairly firm considering the amount of fish available.

## New Record in Dolphins.

What is believed to be the most northerly record for dolphins on the Atlantic coast is established by the unusual specimen which has just been placed on exhibition at the Museum of the Boston Society of Natural History. The big fish was taken on August 15 about 60 miles southwest of Sable Island by the Natalie Hammond and was sent to the museum by F. E. Firth of the United States Bureau of Fisheries. The specimen is about four feet long and weighed 23 pounds.
